PROFESSIONAL EXPERIENCE

Website Developer, Infotel Multimedia

10/2023 – 12/2024

- Developed and optimized the **WordPress** websites, including Okanagan Mental Health Services Society and Mat Ward Construction, resulting in a 30% increase in user engagement.
- Implemented responsive design principles across all projects, ensuring **100% compatibility** with mobile devices and tablets.
- Managed content creation and layout design for **WordPress** sites, utilizing **5 custom themes and 10 plugins** to meet client specifications.
- Conducted regular site maintenance and updates, improving security and functionality for all sites, leading to a **40% reduction in downtime**.
- Utilized **SEO best practices** to enhance search engine visibility for all developed websites, resulting in a 50% increase in organic traffic over six months.
- Collaborated with clients to gather requirements and deliver tailored solutions, ensuring alignment with their branding and business objectives across all projects, achieving **95% client satisfaction** ratings.

Full Stack Developer, Devs For Hire

02/2021 – 08/2023

- Created a financial analytics dashboard using **Angular**, enabling real-time data visualization and enhancing decision-making for clients.
- Applied responsive UI/UX design principles on **WordPress**, driving a notable increase in customer satisfaction.
- Leveraged **Laravel and React** to implement OOP principles, significantly accelerating development time by 78%.
- Authored robust server-side applications with **Node.js**, effectively handling complex data processing tasks and maintaining 99.9% uptime.
- Designed a collaborative task management web app leveraging **Vue.js**, improving team productivity and streamlining project completion.
- Constructed a responsive e-commerce web application with **React**, resulting in a 15% boost in user engagement and a 20% drop in bounce rate.

Full Stack Developer, Sorfi

10/2018 – 12/2020

- Built and deployed several web applications using the **MEAN stack**.
- Developed a robust web platform using the **FastAPI framework** and **SQLAlchemy** as the ORM, resulting in a 30% improvement in data retrieval speed with a **MySQL database** for efficient data management.
- Executed asynchronous event management through **Linux cron jobs** and **Python/Bash scripts**, enhancing system reliability and reducing task completion time by 25%.
